PROFILE

Data analyst with experience across CRM and omnichannel marketing, investment research, engineering, and early-stage startups. I build dashboards and reports in SQL, Power BI, and Salesforce, and I present findings to marketing, sales, and finance stakeholders who make decisions from them. Available to start immediately.

CORE SKILLS

- **Data, BI & AI:** SQL · Power BI · Tableau · Salesforce (Lightning, Marketing Cloud) · Excel (Advanced) · data cleaning, deduplication & fuzzy matching · dashboards & KPI reporting · LLM-assisted data cleaning & analysis
- **Analysis & Methods:** DCF & financial modeling · valuation & target pricing · equity & market research · A/B testing · quantitative & regression analysis
- **Ways of working:** cross-functional & cross-cultural collaboration · stakeholder reporting · presenting findings to non-technical teams

PROFESSIONAL EXPERIENCE

Independent Financial Coach (Freelance)

Independent

2024 – Present

Berlin, Germany (Remote)

- Advise a small client base on budgeting, saving, and investing fundamentals.

Omnichannel Data Orchestration Intern

Viatris Inc.

Dec 2022 – Sep 2023

Germany (Remote)

- Maintained healthcare-professional (HCP) records across a CRM and marketing platform covering 70+ countries, working with national teams to consolidate multiple sources into one master record per HCP.
- Improved record-matching for duplicate and same-name conflicts using fuzzy-matching and market-specific attributes, cutting manual validation by up to 40% for Viatris Connect sign-ups.
- Traced recurring data-quality issues to root causes with data, IT, and marketing teams, and helped develop AI/ML-assisted deduplication for more reliable reporting.
- Kept consent and preference records GDPR-compliant and accurate across platforms, so marketing audiences in Salesforce Marketing Cloud stayed accurate and usable.

Business Intelligence Analyst

Sakı Kampüs

Dec 2021 – Oct 2022

Turkey (Remote)

- Tracked student engagement, retention, tutor performance, and content effectiveness for an early-stage edtech app and website using Google Analytics, and analyzed Meta Ads performance to inform acquisition spend.
- Identified content gaps and engagement patterns that shaped product priorities and expanded the platform's solved-question coverage.
- Produced the quantitative business plan, growth projections, and pitch deck behind the platform's seed equity-crowdfunding raise.

Sales & Financial Analysis Intern

Garanti BBVA Investment

Jul 2021 – Sep 2021

Istanbul, Turkey

- Contributed to DCF valuation models and target-price setting for sell-side equity research (incl. Şişecam), cross-checking against comparable-company multiples.
- Analyzed stock performance, macroeconomic trends, and sector data that fed the research desk's daily notes and the sales desk's client trade ideas.

Environmental Engineering Intern

Aqwadem Consulting

Jul 2019 – Sep 2019

Ankara, Turkey

- Supported feasibility analysis and data collection for the Doğubayazıt wastewater and stormwater project, contributing to the EU IPA (Instrument for Pre-Accession Assistance) application dossier, tender documents, and Environmental Impact Assessment inputs.

Quality & Sustainability Intern

Coca-Cola

Aug 2016 – Sep 2016

Ankara, Turkey

- Assisted plant quality control and water-stewardship work on a high-volume bottling line, supporting in-process checks, inventory tracking, MSDS file upkeep, and water-use/wastewater monitoring (recognized with a departmental sustainability-report award — see Honors).

EDUCATION

M.Sc. in Corporate Management
University of Europe for Applied Sciences

2022 – 2024
Berlin, Germany

- Final grade 88/100. Thesis (95/100) on the adoption of generative AI in pharmaceutical marketing, using the Technology Acceptance Model; co-authored manuscript under review at ADCAIJ (Erler, Kouatly & Saxena).
- Top coursework: Corporate Finance & Group Accounting (96) · CSR & Ethics (95) · Sales Excellence (95) · Strategic & Digital Marketing (90).

B.Sc. in Environmental Engineering
Middle East Technical University (METU)

2013 – 2021
Ankara, Turkey

- Awarded AA (4.0/4.0) in Environmental Engineering Design I & II, a full-cycle system-design capstone (see Honors for detail).

SELECTED PROJECTS

Self-directed analytics and software projects; full code and write-ups on GitHub.

Data-Analysis Portfolio (three end-to-end projects)

- **US stock-market valuation & risk:** analyzed 150+ years of market data, showing valuation (CAPE) historically predicts long-run real returns; quantified long-run growth (~2.4%/yr), worst drawdown (~81%), and gold–equity correlation. Tech: Python (pandas, statsmodels OLS), SQL window functions, matplotlib/seaborn.
- **Pharmaceutical CRM sales analytics:** linked sales-call activity to prescriptions and segmented 600 physicians into priority tiers to focus the sales effort (mirrors HCP-data work at Viatris). Tech: Python (pandas, scikit-learn KMeans), SQL, statistical testing.
- **Free-to-play game economy & balance:** measured retention curves (D1/D7/D30), flagged overpowered items and economy inflation, and modeled paying-player conversion. Tech: Python (scikit-learn logistic regression), proportion z-tests, SQL.

Game Development (browser-based games)

- Built and shipped playable browser games, including a turn-based battle game with online PvP, persistent saves, and automated testing (battle), plus rocketio, Bayram-Ziyareti, and Toptrumps. Tech: JavaScript, HTML/CSS, Supabase.

HONORS & CERTIFICATIONS

- **Best Capstone Design Project** — top project among competing teams in METU's Environmental Engineering Design course (awarded AA, 4.0/4.0). Designed and compared three wastewater-treatment scenarios for a 144-facility industrial zone, integrating hydraulic design, cost estimation, and net-present-value analysis to recommend the optimal solution.
- **Migrapreneur AI Training Scholarship (2025)** — selected for the AI Opportunity Fund: Europe (funded by Google & the Centre for Public Impact).
- **Best Summer Practice Award** — METU Dept. of Environmental Engineering, for a research report on sustainability goal-setting at Coca-Cola.
- **Google AI Essentials** — Coursera certification (2025).
